Samira Ban

Junior Full-Stack Developer

Junior Full-Stack Developer and recent IT graduate with hands-on experience building, testing, deploying and maintaining real-world web applications during a Full-Stack Development internship at NLCITS. Experienced with React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, Git/GitHub, Vercel, Render and Hostinger. Contributed to recruitment, HR and corporate platforms including Star Euro Armenia, SMCQA Management Platform and OS Group, with practical experience in admin systems, responsive UI, API integration, debugging, deployment and QA. Seeking a remote or international Junior Full-Stack Developer / Junior Software Engineer opportunity.

EDUCATION

Bachelor of Information Technology 2024 – 2026

ISMT, Biratnagar · Graduated July 2026

Programming · Web Design and Development · Database Design and Development · Systems Development Life Cycle (SDLC) · Managing Computing Projects · Application Development

EXPERIENCE

Full-Stack Developer Intern Aug 2026 – Present

NLCITS, Kathmandu

- Contributed to 3+ production web platforms, implementing full-stack features with React, Node.js, Express and MongoDB.
- Improved responsive UIs and admin workflows by integrating REST APIs, refining layouts and fixing frontend and backend bugs.
- Supported deployments to Vercel, Render and Hostinger and verified releases through functional, regression and responsive testing.

SELECTED REAL-WORLD PROJECTS

Star Euro Armenia — Full-Stack Recruitment & Business Platform

- Contributing to a production recruitment platform using React/Vite: jobs, services, locations, website content, admin functionality, API integration and responsive UI.
- Handle deployment, debugging and QA using Vercel and Render, verifying features across devices and user flows.

SMCQA Management Platform — HR & Recruitment Management Platform

- Contributed to a real-world HR, manpower recruitment and hospitality services platform with React frontend, backend APIs and MongoDB.
- Worked on job management, applicants, CV/application workflows, inquiries and admin content management; performed UI/UX improvements, regression testing and production troubleshooting.

OS Group Corporate Website — Corporate Web Platform

- Built a responsive React UI and content/design changes while preserving existing functionality; used Git/GitHub and performed functional and responsive QA during development and deployment.

TOP PERSONAL PROJECTS

SecureVault — Node.js authentication and password-management application with sessions, routes and server-side functionality.

Market Hub Nepal — Full-stack e-commerce marketplace with structured backend (routes, controllers, middleware, services, database integration).

Wander-Wise — Full-stack travel web app with models, services, handlers, middleware, validation and API-driven development.

SKILLS

Frontend

React.js · JavaScript · HTML5 · CSS3 · Vite · Responsive Web Design

Backend

Node.js · Express.js · REST APIs

Database

MongoDB · CRUD · Database Integration

Tools

Git · GitHub · VS Code · Postman · npm

Deployment

Vercel · Render · Hostinger

QA

Functional Testing · Responsive Testing · Regression Testing · Cross-Browser Testing · Bug Reproduction · Debugging · Production Verification

ADDITIONAL STRENGTHS

Real-world project experience · Full development lifecycle exposure · Deployment & hosting · QA/testing · Debugging & problem solving · Existing-codebase development · Responsive web development · Client/business requirement implementation · Remote-ready collaboration
